

Edgerton Fire Protection District

Firefighter 1

Skill Drill #101 - Turnout Drill

Objective

Participants will become familiar with efficient ways to don PPE, SCBA, and necessary equipment used when operating at a fire scene. The target time for this drill is 3:30 minutes.

Drill

Start at locker

1. Don pants and boots properly
2. Don hood
3. Don coat - including collar strap closed and collar up
4. Walk to apparatus
5. Place accountability tags on passport and team tag on helmet
6. Place arms through shoulder straps of SCBA
7. Secure seatbelt
8. Unbuckle seatbelt
9. Obtain flashlight and radio
10. Exit apparatus
11. Finish securing SCBA including checking amount of air and low air alarm
12. Correctly don face piece including checking seal
13. Activate and reset pass device
14. Ensure remainder of PPE is correctly in place.
15. Obtain proper tool
16. End of drill

Skill Drill #101 - Turnout Drill

Evaluator Talking Points:

- "What's in your pockets?"
- How can we improve our time?
- Can the apparatus be organized differently to help improve times?
