

Edgerton Fire Protection District

Skill Drill #107 - Hazmat / ERG

Objective

The ERG (Emergency Response Guide) Provides initial information about the response to a hazardous material or dangerous goods incident. Participants will complete worksheets and drills to help them become proficient at using the ERG to identify the presence of hazardous materials. They shall also understand how to mitigate incidents involving hazardous materials.

Drill

Introduction

Participants will be shown the basic layout of the ERG in 2 forms, the book itself and the and the ERG app on the Ipads.

2012 ERG (Emergency Response Guidebook) Video Introduction

http://youtu.be/dV1XfqZp_f4

2012 ERG Guidebook Worksheet

Participants will complete the worksheet individually

2012 ERG Guidebook Response Scenarios

Participants will complete the 11 response scenarios found on pages 11-17 in the ERG Operation and Scenarios document.

Evaluator Talking Points:

- What is the significance of a P following a guide number?
- If additional help is needed, where are our closest resources?
- Where are the county decon resources located?
